- ▶ All of the licenses shown in the diagram above are available for Microsoft 365 Enterprise E5 and its components too
- ▶ Customers with Microsoft 365 Enterprise E3 User SLs may purchase a Step-up to Microsoft 365 Enterprise E5, or to the individual E5 components

- ▶ Other required products, such as SQL Server, must also be licensed separately
- ▶ Users licensed with CALs acquired through a Volume Licensing agreement are not eligible to access servers licensed with these on-premises server rights
- ▶ Users licensed with the three components rather than the single Microsoft 365 Enterprise User SL also receive these rights

The following rights are available for active SA customers when transitioning to Microsoft 365 Enterprise using From SA User SLs:

- ▶ Office Professional Plus
 - One installation for the term of the M365 subscription
 - Downgrade rights are included
 - Rights to run Office Professional Plus in an RDS deployment are not included

Customers who add new Microsoft 365 Enterprise Full User SLs to the same Volume Licensing agreement as the one through which the From SA User SLs are purchased, also receive the rights to install Office Professional Plus.

The number of Full User SLs which are granted these rights may not exceed the number of From SA User SLs.
